Treasure Garden	Treasure Garden Quick Ship Market Aluminum 9' Octagon Collar Tilt Crank Lift Umbrella	Many	EXUM800QUICKSHIP
Treasure Garden	Treasure Garden Quick Ship Market Aluminum 9' Octagon Collar Tilt Crank Lift Umbrella	Many	EXUM810QUICKSHIP

Most of the Treasure Garden 9' and 8x10' Umbrellas will work EXCEPT for the QUAD LIFT models 11' Models are not usually recommended due to the size and extra wind that they can catch.

Any 1.375" Diameter pole umbrella can be used

- These styles should just slide into the adapter
- Hollow tube versions are not recommended as they tend to be weaker and can bend more easily with winds
- Solid wood versions are best used, and should be cross drilled for The mounting bolt for the best security

For 1.5" Diameter pole umbrellas, they must be 2-piece umbrellas

- The thumb-release button must be present in The UPPER part of The umbrella
 - If the thumb-release button is in the LOWER pole, it will not work
- These umbrellas must be installed into the adapter without the lower pole

Umbrella Upper Pole has thumbblatch

Umbrella Lower Pole has thumbblatch
